

# Confident Decisions in Today's Financial Landscape

C+R helps financial services teams understand how customers make sense of complex choices to uncover what drives trust, confidence, and action.

## The Evolving Landscape the Industry Is Facing

- Keeping pace with digital and fintech disruption while maintaining trust
- Helping consumers feel confident and comfortable while driving digital adoption
- Faster decisions under leadership and compliance scrutiny
- AI and digital experiences that feel credible and human

## We Partner With Financial Services Teams to...

- Separate signal from noise on digital features and innovation
- Learn how customers navigate complex financial decisions
- Deliver actionable insights that withstand leadership and compliance scrutiny
- Pinpoint where AI earns trust, and where it doesn't

## Breadth of Experience Across the Financial Services Ecosystem

- Fintech
- Lending and Credit
- Retail Banking
- Insurance
- Payments and Digital Wallets
- Wealth and Investment Management

Across Both **Consumer** and **B2B** Audiences

## Research That Moves Decisions Forward

Segmentation • A&U • Customer Journey • Innovation & Concept Testing • Communication Testing • UX • Brand Tracking • Long-Term Communities

Delivered With Consultative Storytelling That Connects Insights to Action
